Request for Change
Change Request #: RFC 10-20**

Requestor Name:	Dennis DuPont	Date:	June 29, 2010	Affiliation:	
Email Address:	ddupont@lm.doe.gov	Phone No:	970-248-6722	DOE	
				Contractor	x
Proposed Change:	<p>Include all data call data elements in Adhoc reporting capabilities.</p> <p>Various source data is expected to be updated annually, including Usage Code, Status, Using Organization, Utilization, RPV, Deferred Maintenance, Mission Dependency, Annual Operating Costs, Annual Actual Maintenance, Outgrant Indicator, Excess Indicator, Estimated Disposition Year, No. of Employees, Sustainability, and Bridges. Of these data elements, the following are</p> <ul style="list-style-type: none"> (1) inconsistent with the Adhoc query – No. of Employees (Total Occupants in Adhoc) (2) not available in the Adhoc query – Bridges (3) don't have site-level roll-up capability – Annual Operating Costs 				
Justification:	<p>In order to be able to determine what is currently in FIMS, ensuring that that data for both the annual data updates and Adhoc query are consistent and available would eliminate having to pull previous years records for each asset; thus, saving time and ensuring accuracy.</p>				
Please Do Not Type Below This Line					
Remarks by FAC:	<p>FAC Recommended September 15, 2010</p> <p>This request will be implemented at some point after the initial FIMS 2.0 release.</p> <p>Implemented with FIMS v2.3 on January 18, 2012</p>
