Change Request #:11-20**

Proposed Change:	<p>Add a new data element titled "Estimated Transfer Year" defined as follows:</p> <ol style="list-style-type: none"> 1. The anticipated fiscal year during which the internal property transfer between programs would conclude 2. The field would accept the four digit current fiscal year through any future year 3. It would apply to DOE owned buildings, trailers, structures and land 				
Justification:	<p>Some programs and sites continue to use the "Estimated Disposition Year" to indicate planned internal transfers, typically to EM. New FRPP data element 30 "Anticipated Disposal Date" will draw from FIMS data element "Estimated Disposition Year." With the increased scrutiny on dispositions (e.g., Presidential Memorandum on Disposing of Unneeded and Underutilized Real Property) and projected cost savings, the Department will need to clarify when a disposition pertains to a program only or when the Department will rid itself of the asset entirely.</p>

Remarks by FAC:	<p>07/20/2011 – The need to further educate the user community on the use of the Estimated Disposition Year field would be a preferred approach rather than adding a new data element.</p> <p>07/20/2011 – FAC Not Recommended</p>
