Proposed Change:	<p>Add an optional "Assigned Contractor" field for buildings, trailers, and OSF's (all ownerships).</p> <p>Place on Property Detail screen</p>				
Justification:	<p>We have several contractors on-site and we receive requests for contractor specific FIMS information. To add assigned contractor information to our FIMS report we have to use other information systems that contain contractor information and merge the data. If an assigned contractor field was made available as an optional entry within FIMS, we could populate the field and run a complete report with no additional steps. Our DOE Reality Office has also requested that this be added in FIMS.</p>
