Man Hours to Implement:		HQ Program Ofc:	MA	Contractor	
Proposed Change:	<p>1. Eliminate the Physical Barriers Prevent Inspection data element.</p> <p>2. Add a new data element, Elevation, with the following response options:</p> <ul style="list-style-type: none"> • Below grade • On grade • Above grade <p>Terms refer to the predominant placement of the structure by volume. Below grade means predominantly underground. On grade means predominantly on ground level. Above grade means elevated above the ground by structural supports or suspended by another structure.</p>				
Justification:	RFC 13-06 decoupled the Physical Barriers Prevent Inspection and Deferred Maintenance data elements. Knowing the structure's accessibility will provide context for the deferred maintenance estimate recorded.
