Proposed Change:	Eliminate the Estimate Indicator data element. Modify Standard Reports 060 and 076 as appropriate.				
Justification:	The Estimate Indicator does not appear to have a vital role the FIMS STARS reconciliation process in that users may update the initial acquisition cost at any time. However, if users need this information to keep track of the maturity of cost data in FIMS, then (1) users need to distinguish between not just estimates and expenditures but all also between funds expended to date and final expenditure amounts and (2) the same uncertainty associated with initial acquisition exists with projects that affect betterments.
