

**U. S. Department of Energy
Facilities Information Management System
Request for Change
Change Request #: 14-19, Rev 1**

Requestor Name:	Larry Bridges	Date:	03/04/2015	Affiliation:	
Email Address:	Larry.Bridges@nnsa.doe.gov	Phone No:	202-586-0571	DOE	X
Program Office:	NNSA			Contractor	
Proposed Change:	<p>Create an Excess Indicator category "S" for screened (GSA, HUD, and DOE).</p> <p>Develop a "trigger/condition" so that when Excess Indicator is changed from "N" to "Y":</p> <ul style="list-style-type: none"> • Mission Dependency data element is changed to "NMD" (if it isn't already) • Primary Core Capability is changed to "N/A". 				
Justification:	<p>The new "S" category could be used for facilities that will have a "short fuse" on Status going from Operating to D&D once Excess Indicator is changed to "Y". The pre-screening for Excess can be done well in advance, without having to wait for months on GSA and HUD to make a determination.</p> <p>Currently an asset may become "Excess" and still be listed as Mission Critical (MC) or Mission Dependent Not Critical (MDNC).</p> <p>If a facility is "Excess", then it is not critical to an NNSA Core Mission Capability, so NA is more appropriate.</p>
