Change Request #: 16-04**

Requestor Name:	William Buyers	Date:	01/20/2016	Affiliation:	
Email Address:	William.buyers@inl.gov	Phone No:	208-526-9271	DOE	
Program Office:	Nuclear Energy			Contractor	X
Proposed Change:	Add data elements for OSF assets that identify the OSF as having a roof and the roof area. These data elements should be included in ad hoc reporting. The data elements could be included in the OSF Info, OSF Dimensions or Maintenance windows.				
Justification:	With the recent change in the definition of a building, many OSFs now have a roof (e.g., three walled structures with roofs). Therefore, some OSFs require roof related activities such as inspection. Identifying these assets and the roof size will assist sites with downloading, tracking and managing OSF assets that have roofs and improve the functionality of FIMS as a asset management tool for sites/users.				
Please Do Not Type Below This Line					
FAC Remarks:	02/25/2016 – FAC Not Recommended. It appears this is something that is better suited to be tracked outside of FIMS. For example, CAIS or another asset inspection tool.
