<b>Proposed Change:</b>	Modify standard and ad-hoc reporting tools to allow for "inspection date" column to be sorted by year/month/day. I.e. 2016/01/25				
<b>Justification:</b>	The current tools do not allow inspection date to be sorted by year/month/day. Performing our CAS in accordance with the RPAM required 5 year inspection cycle requires us to track the inspection date by year/month/day. The current tools are locked and report by month/day/year, changing the date format is not available making it very difficult to easily review or report by last inspection date.

<b>FAC Remarks:</b>	02/25/2016 – FAC Recommended. The FIMS ad-hoc query tool will be modified similar to CAIS that will provide an option for the Inspection Date that will be sorted in year/month/day format.
